

CADET 330 RIB ALU DL

Z11216

CADET RIB ALU DL

ELEGANCE AND STRENGTH

Built to last and generously spacious, a Cadet Rib will elegantly complete your boat. Equipped with large-diameter tubes, they're particularly stable and able to carry many goods and passengers while keeping them dry. Their polyester deep-V-hull allow them to easily lift off water and gain comfort in small waves. Available in two colors, in Strongan™ or Hypalon™ fabric, for intensive use in tropical zones.
