- 1 - For spillover systems: Double the freezer volume, add to refer volume, consider box as all refer. Ex: 9 cu ft refer + 3 cu ft frz, consider as 15 cu ft refer
- 2 - System suggestions based on minimum of 3" closed cell polyurethane foam insulation in refrigerator, minimum of 4" in freezer
- 3 - Evaporator sizing is overall, in inches, includes tubing and is approximate
- 4 - Prices and conditions subject to change without notice
